## RAILWAY LUNCHEON CLUB

Visit to Carlingford, Wed 20 April 2011

Gary Hughes reports:

Carlingford is one of those places which most of us have heard about, but probably few have been to. It is the terminus of one of suburban Sydney's few branch lines, and is a line which, as it exists today, was built under two separate private Railway Acts passed by the NSW Government in October 1886 and June 1893. Over the years it has seen steam hauled goods and passenger trains, railmotors and since it was electrified in 1959, suburban electric trains.

Against this background, the Railway Luncheon Club conducted its April monthly outing to Carlingford. Whilst the station has seen much 'modernisation' over the years, the old goods shed, built by the Department of Railways in 1902 and privately acquired soon after, remains. It now serves as a Produce Store, selling all kinds of 'rural' goods. Remnants of sidings which once served it remain, although are no longer in use. Another 'gem' close by is the K13 Submarine Memorial. Whilst it has nothing to do with railways, the group was none the less fascinated to hear of the history of the Memorial and the submarines which it remembers.

It was certainly a different day, and our thanks must go to Ken Williams who suggested Carlingford in the first place, and then researched and wrote up the informative notes.

Our next outing is on 18 May, and we are going to Olympic Park Station. We meet on the upper concourse area adjacent to the Booking Office at 11.00am. For the future we are going to Clyde in June, Waratah in July, Lindfield in August and in September it's our 2-day outing to Goulburn. Booking forms for this will be in the June Newsletter.

# LOOKING AT THE MINES & LINES IN NEWCASTLE CITY & SUBURBS with Ed Tonks

**Saturday 21 & Sunday 22 May 2011**

**E**njoy a weekend exploring the mining sites and associated railway workings of Newcastle with our noted historian, Ed Tonks.

Areas to be explored will include A.A. Co. sites in areas close to the city, then Merewether and Hamilton. After lunch visit the recently opened Maritime Museum and view the changes being made to the Honeysuckle Railway Workshops as they are prepared to form the new Regional Museum. Visit Nobby's headland and see where the railway ran. Travel to the South Waratah Colliery on the Raspberry Gully line to view the railway and colliery site. Walk a section of the Belmont line now known as the Fernleigh Track through the Redhead Tunnel and over Fernleigh Loop. Pass mine sites along the Belmont line before booking in to your overnight accommodation.

On Sunday we will travel via Carrington, Port Waratah and Morandoo to Stockton. View Newcastle's changing CBD from across the river. Investigate the Stockton Colliery disaster of 1896. Visit the site of Walsh Island Dock Yard, birthplace of some of Sydney's first electric trains and view Kooragang Island's new third coal loader, now in operation. Lunch at the Stag and Hunter Hotel located at the Mayfield Tram Terminus. After lunch travel via New Lambton, Jesmond to Wallsend to retrace the railways and visit mine sites.

Travel to Newcastle by catching the 7.21am Intercity Service from Sydney Central due to arrive at 9.52am to join our bus tour. Pack your walking shoes, as there will be some areas only accessible by easy walking.

The weekend includes overnight accommodation at the Tudor Motor Inn, Hamilton, a group dinner at Anchors Seafood Restaurant on Saturday night, full breakfast Sunday morning and entry to the Maritime Museum. Lunches on both days will be at your own expense.

Return to Sydney on Sunday on 4.41pm Intercity service from Broadmeadow.

**WINTER WINELANDER to STANTHORPE & WALLAN-GARRA**

**Saturday & Sunday 6 & 7 August 2011**

Now that the lines are open again, the Queensland Division of the ARHS has again offered us a carriage on their Winter Winelander train. The tour cost is all inclusive with meals on board, wine tasting and double/twin share Motel accommodation at Stanthorpe on Saturday Night. A limited Single Supplement is available to early bookers.

Departing Brisbane at 7am (EST) on Saturday 6 August 2011, travel through Brisbane's Western Suburbs to Ipswich and Rosewood, the end of the suburban electrification. The countryside then becomes more rural as we proceed to Grandchester where the tortuous climb of the Little Liverpool Range begins. The next town is Laidley, which marks the start of the fertile black soil plains of the Lockyer Valley. Onward the train takes us through Forest Hill, Gatton, Grantham and Helidon before we again start to climb. These are the foothills of the Great Dividing Range and after Murphy's Creek the climb begins in earnest. Imagine the railway workers of 1866 with picks and shovels carving out the cuttings and tunnels to enable trains to reach the Darling Downs. As we approach the summit, note the panorama that unfolds on the left of the train as we approach the Garden City, Toowoomba. Travelling south, we encounter grain-growing areas. Wine Tasting (whites) and Lunch will be served as we proceed through the small towns of Cambooya, Greenmount, Clifton and Nobby before reaching Warwick. Climbing further through another range we reach the Granite Belt country at Dalveen. This area is famous for apples, pears and stone fruit. Several more small towns are passed to reach The Summit, which is the highest point on the railway in Southern Queensland.

You may wish to leave the train at Stanthorpe to join the Wineries Tour with Dinner at Claudia's Thunderbolt Farm Country Restaurant on Saturday Night.

Or continue to the rarely visited by train, State Border station at Wallan-Garra. This line is listed for permanent closure in the plans to rationalize QR operations in the very near future. See the Station Museum and what is left of the extensive change of gauge facilities that once existed here. Dinner will be served in the Dining Car on the return journey to Stanthorpe on Saturday Night.

A late start will be made on Sunday morning with more wine tasting (reds) followed by lunch as we have a leisurely return run to Brisbane arriving late afternoon.

The train will be made up with air-conditioned carriages from the Sunlander and Westlander trains hauled by a QR diesel electric Locomotive.

You will need to make your own arrangements to get to Brisbane and return and, likewise, accomodation. WINTER
